

# WHO WOULD YOU LIKE TO SEE WIN THE LIFE SCIENCES WOMEN OF INFLUENCE AWARD 2018?

**A/Prof Evelin Tiralongo**  
**Director, Clinical Trial Unit Griffith University**

I am a Griffith University pharmacy academic and have worked in life sciences research for the past 20 years. My work has generated peer-reviewed publications, a patent and book chapters.

Recently, I developed Griffith's Clinical Trial Unit (CTU) into a Core Research Infrastructure Facility for the University and a nationally and internationally recognised site for high quality clinical trial research. I have established strong collaborations with the Gold Coast (GC) Hospital and Health Services, the GC GP network, and contributed to the marketing of the GCHKP.

I have served on NHMRC and TGA committees, ACTA working groups and the GC Health District Community Council contributing to national policies and regulation in complementary medicines and healthcare overall.

The award would enable me to attend Bio2019, allowing me to market the CTU and the GC as a Life Science Hub of innovation bringing more business and healthcare opportunities to the GC community.
