

## **Prof. Peter Andrews AO**

### **Chairman of Life Sciences Queensland Limited**

Professor Andrews served as Queensland's first Chief Scientist from 2003 to 2010. Before that, he led multidisciplinary scientific teams in several Australian universities and co-founded six biotechnology companies, two of which took drugs to global markets.

He is the co-author, with social scientist Dr Fiona Wood, of "Überpreneurs: how to create innovative global businesses and transform human societies", published in 2014.

He is currently chairman of the boards of Implicit Bioscience Ltd, Vast Bioscience Pty Ltd and QUTbluebox Pty Ltd, and of the scientific advisory boards of Bond University Faculty of Health Sciences and Medicine and the Maurice Wilkins Centre for Molecular Biodiscovery (NZ).
